

Fantasy Draft Board

Hover the mouse over the upper right corner to find the control panel.

Choose a csv file to populate the Ticker Rankings. (Template can be downloaded from the link in the control panel.)

This should populate the ticker.

by Falcon (DRG) Emery Ashford (LNC) Casey Everest (GNT) Jordan Orion (BLZ) • RB: Sawyer Ashford (WZD) Morgan Summit (LNC) Skyler Summit (HWK)

Optional: Choose a second csv file to display custom rankings on the Commissioner Panel. This allows the person running the draft board to have their own rankings in view and not display their best available to the other players. Those can instead come from an agreed upon source (yahoo, espn, etc.). Check the provided template for the exact format. Header names must not be changed. You can have as many players as you would like in the rankings file. It is important to note that both files must have identical player lists (rank order can be different).

Rank	Position	Name	Team
1	WR	Casey Blaze	WLF
1	WR	Kendall Hawk	KNG
2	RB	Sawyer Ashford	WZD
3	WR	Taylor Haven	TGR
4	RB	Morgan Summit	LNC
5	RB	Skyler Summit	HWK
6	WR	Taylor Wilder	STR
7	RB	Cameron Frost	BLZ
8	WR	Delante Summit	DRG

Set the number of rounds and toggle snake draft on or off.

Open the Commissioner Panel by clicking the button. Works best to have the commissioner panel on one screen and the draft board on a larger screen.

Enter the teams in draft order separated by a comma and press save teams.

You can Edit or Delete any pick at any time.

Click on the header of the draft board to add your league name or update the league notes section.

Number of rounds can be adjusted at any time by hovering in the upper right corner of the draft board. You also have an option to clear all picks. This will make all players available again in the commissioner panel and repopulate the ticker. The reset to default option can be used from the draft board or the commissioner panel to fully reset everything, otherwise, your csv selections, team names, picks, etc, will persist if the board is reloaded.

Click Export CSV to output a file with the draft results.
